

## New Candidate Screening Criteria for Pancreas

---

When a transplant center adds a candidate to the UNOS waiting list, they are able to enter donor criteria, also known as donor acceptance criteria. These acceptance criteria are used to help determine which potential recipients appear on the match list for a particular donor. Candidates are screened from the match if the donor does not meet specific criteria for the individual candidate.

In an effort to more selectively identify potential recipients for available donor organs and thereby reduce the number of organ offer notifications made to on-call transplant personnel, new candidate screening criteria will be added to Waitlist<sup>SM</sup> and DonorNet<sup>®</sup>. In addition, some of the organ-specific screening criteria will be separated into local and import criteria to allow for more definition between local and import organ preference. For the purposes of this document, we define Local as organ offers made from donors in your OPO, and Import as organ offers made from donors outside of your OPO.

Example of what **you see today** on pancreas candidate records:

Pancreas Donor Acceptance Criteria	
Minimum acceptable Donor Age:	Local: 10 Years Import: 10 Years
Maximum acceptable Donor Age:	Local: 75 Years Import: 75 Years
Accept DCD donor?	Local: Import:
Accept an HCV Antibody Positive donor?	No
Accept a Hepatitis B Core Antibody Positive donor?	
Minimum acceptable Donor Weight:	75 lbs
Maximum acceptable Donor Weight:	225 lbs
Maximum miles the Organ or Recovery team will travel?	300 miles

Example of what **you will see** on pancreas registrations after changes:

Pancreas Donor Acceptance Criteria	
<b>Donor Characteristics</b>	
Minimum acceptable donor age: <b>R</b>	Local: <input type="text"/> <input type="text"/> <input type="button" value="v"/> Import: <input type="text"/> <input type="text"/> <input type="button" value="v"/>
Maximum acceptable donor age: <b>R</b>	Local: <input type="text"/> <input type="text"/> <input type="button" value="v"/> Import: <input type="text"/> <input type="text"/> <input type="button" value="v"/>
Minimum acceptable donor weight: <b>R</b>	<input type="text"/> <input type="text"/> <input type="button" value="v"/>
Maximum acceptable donor weight: <b>R</b>	<input type="text"/> <input type="text"/> <input type="button" value="v"/>
Maximum acceptable donor BMI:	<input type="text"/> kg/m <sup>2</sup>
Accept DCD donor? <b>R</b>	Local: <input type="radio"/> YES <input type="radio"/> NO Import: <input type="radio"/> YES <input type="radio"/> NO
<b>Medical &amp; Social History</b>	
Accept a donor with a history of diabetes?	<input type="radio"/> YES <input type="radio"/> NO
<b>Serology</b>	
Accept a Hepatitis B Core antibody positive donor? <b>R</b>	<input type="radio"/> YES <input type="radio"/> NO
Accept an HCV antibody positive donor? <b>R</b>	<input type="radio"/> YES <input type="radio"/> NO
Accept an HTLV I/II antibody positive donor?	<input type="radio"/> YES <input type="radio"/> NO
<b>Recovery</b>	
Maximum acceptable cold ischemic time:	<input type="text"/> hours
Maximum miles the organ or recovery team will travel? <b>R</b>	<input type="text"/> miles
<b>Lab Values</b>	
Maximum acceptable donor serum amylase - peak	<input type="text"/> u/L
Maximum acceptable donor serum lipase - peak	<input type="text"/> u/L

The following questions will be added:

\* Please note: The questions listed below are **NOT** required in Waitlist.

- **Maximum acceptable donor BMI**
- **Accept a donor with a history of diabetes?**
- **Maximum acceptable cold ischemic time**

- **Maximum acceptable donor serum amylase - peak**
- **Maximum acceptable donor serum lipase – peak**
- **Accept an HTLV I/II antibody positive donor?**

**NOTE:** Questions have been broked into 5 major sub-headings, to better assist in managing the number of donor acceptable criteria data elements.
